All Clear 2010
Rewards Program

300506174

Up to 5% cash back.

When you start below with Altosid® larvicide, you stop mosquitoes before they start. Then, you can finish above with Zenivex® adulticide for permanent knockdown and reliable control of adult mosquitoes. All while you are getting cash back for making good decisions in your mosquito control efforts.

How the rebate works.

For the first time ever, you are able to combine your Altosid® and Zenivex® product purchases to meet rebate levels. You have until January 31, 2011 to submit your rebate form for purchases dated January 1, 2010 to December 31, 2010. Submit your form at any time, and remember that the more you purchase, the greater the rebate! One rebate submission per customer.

How the payback works.

Rebate levels have been expanded and are now based on total 2010 purchases (excluding taxes) of all Altosid® and Zenivex® products.

Your Cumulative Purchase	Rebate %
\$10,000 to \$24,999	1%
\$25,000 to \$74,999	1.5%
\$75,000 to \$149,999	2%
\$150,000 to \$299,999	3%
\$300,000 to \$499,999	4%
\$500,000 +	5%

Rebate program is available only in the U.S. for municipal, county and state agencies and U.S. commercial organizations that purchase Altosid® and Zenivex® products from an approved U.S. agent.

How Altosid® larvicide works.

Altosid® is a larvicide that targets mosquitoes where they breed – the water. Each Altosid® formulation contains (S)-Methoprene, an Insect Growth Regulator (IGR) that stops mosquitoes from becoming breeding, biting adults. Altosid® provides long residuals and its different formulations give you application options in a variety of breeding areas such as catch basins, ponds, lakes, roadside ditches and surface water receptacles – locations where ongoing maintenance is necessary, but often impractical.

Altosid® formulations included in the rebate:

- 30-day briquets & XR briquets
- Liquid Larvicide (SR-5)
- Liquid Larvicide Concentrate (SR-20)
- Pellets & Pellets WSP
- SBG granules & Altosid XR-G® granules

How Zenivex® adulticide works.

Zenivex® is an adulticide for mosquito abatement professionals who want to provide reliable control of adult mosquito populations. Zenivex® is a low odor formulation that works on contact with a positive environmental profile. It is an oil-based formulation for use in Ultra Low Volume (ULV) application and has these advantages:

- **No Piperonyl Butoxide (PBO), no synergist**
- Quick, permanent knockdown
- Low use rates
- Environmental Protection Agency (EPA) reduced risk classification

Your rebate awaits.

Get cash back for controlling mosquitoes by filling out this form. Remember to attach copies of your invoices.

Full Name: _____

Title: _____
