Be Vectorious
with your MOSQUITO control economics

 **Altosid | Zenivex®**

Protect your community and **EXTEND** your budget

Be Vectorious – manage mosquito populations and your mosquito abatement budget at the same time with the purchase of Altosid® larvicide and/or Zenivex® adulticide. Altosid® larvicide stops mosquitoes before they start. Zenivex® adulticide kills breeding, biting adults. Get cash back on your purchase(s) with the All Clear 2012 rebate.

Up to 5% cash back

You can combine all of your 2012 Altosid® and Zenivex® product purchases (excluding taxes) to meet rebate levels.

Your Cumulative Purchase	Rebate %
\$10,000 to \$24,999	1%
\$25,000 to \$74,999	1.5%
\$75,000 to \$149,999	2%
\$150,000 to \$299,999	3%
\$300,000 to \$499,999	4%
\$500,000 +	5%

How the rebate works

The more you buy, the more you get back. Just fill out the attached form and submit it with all relevant invoices for purchases made from January 1, 2012 to December 31, 2012. The deadline for submission is January 31, 2013, one rebate submission per customer. Rebate program is available only in the U.S. for municipal, county and state agencies and U.S. commercial organizations that purchase Altosid® and Zenivex® products from an approved U.S. agent.

How Altosid® larvicide works

Altosid® larvicide targets mosquitoes in standing water, where they breed. Each Altosid® formulation contains an Insect Growth Regulator (IGR) that prevents larvae from developing into breeding, biting adults. Altosid® larvicide has long residuals and specific formulations for applications in locations where ongoing maintenance is necessary, but often impractical.

Altosid® formulations included in the rebate:

- 30-day Briquets & XR Briquets
- Liquid Larvicide (SR-5)
- Liquid Larvicide Concentrate (SR-20)
- Pellets & Pellets WSP
- Altosid SBG® Granules & Altosid XR-G® Granules

How Zenivex® adulticide works

Zenivex® is an adulticide that provides permanent knockdown and reliable control of adult mosquito populations. Zenivex® formulations are low odor, work on contact, and have a favorable environmental profile. These are oil-based formulations for use in Ultra Low Volume (ULV) applications and have the following advantages:

- No Piperonyl Butoxide (PBO), no synergist
- Quick, permanent knockdown
- Low usage rates
- Environmental Protection Agency (EPA) reduced risk classification
- Two formulations, Zenivex® E20 & Zenivex® E4 RTU for a variety of ULV applications

2012 rebate form

Get cash back for controlling mosquitoes by filling out this form. Remember to attach copies of your invoices.

FULL NAME _____

TITLE _____

COMPANY _____
